Choice Linens in This Stock.

A time was—and not so very far back—when admixtures of cotton became so prevalent that lovers of fine linens bought timidly, not knowing where to depend as inexperienced dealers were quite as numerous as the spurious linens. The tide has changed—purest of linen is being demanded, the kind that will be a joy and pride in the family for generations—as in our grandmother's days. We have them; bought from mills that have been making linens for more than two centuries, every yard bleached only by sun and dew, the slowest method there is, but the one sure way to save the fibre and produce a snowy whiteness. Very beautiful patterns are here in exclusive cloths with napkins to match, also by the yard and napkins to correspond. Showing is no trouble whether you wish to buy or not.

It is an amazing collection of beautiful rings—settings of turquoise, emeralds, rubies, diamonds, pearls and other beautiful stones, in exact simile to kinds worth \$25.00 to \$100.00, and guaranteed to wear five years in constant use.
